Yes. You may reactivate your Subscription once it has been cancelled, but you will not retain Subscription Product Points. However, if you notify the company within 30 days of deletion and request reinstatement of the deleted Subscription Product Points, then the points will be reinstated. If not, the Subscription Product Points you had previously earned will be deleted and your Subscription points percentage will renew, starting at 20% for monthly Subscription orders and 10% for bi-monthly Subscription orders.
